

Erchonia Laser Case Study – Surgery on Swan

Dr Don Mccune
Surprise, AZ

Swan

September 2014

This is the 405 set on Auto Immune 887 Fr that Dr. Bill Inman taught the summer of 2014. These are swans that have been attacked by coyotes on golf course lakes in Sun City West, AZ. This is Opie a boy that swallowed a rubber feeding tube and had surgery to cut it out of the stomach.
